**PM230 Portrait Matt** - Strong, vivid colours guarantee a pleasing and high-quality appearance that is reliable and long lasting, even under extreme conditions. Ideal areas of use are menus and invitations, artistic b/w and sepia photos as well as demanding digital art prints. This paper is the perfect all-rounder for all types of matt printing and comes up trumps with its perfect price/performance ratio.

**PL285 Luster** - This high-quality, heavy-weight inkjet paper is ideal for reproducing very wide colour gamuts, with excellent shadow detail. The paper's properties make it an outstanding base for large-format, photo-realistic b/w and colour portraits, such as wedding photos, baptisms and similar occasions.

**PSR290 Premium Portrait Silk Raster** - The Silk Raster specially bright white coated paper impresses with its premium weight and gives the print extra quality and stability. It feels very similar to a classical photo lab paper and the PSR290 is very suitable for high-quality portraits. In addition, due to the raster surface it is effective for scanning protection or against unwanted duplications.

**ISG250 Iridium Silver Gloss** - The ISG250 is a glossy, silver-metallised photo paper with unique Iridium-like surface and extremely high resolution for professional Photographers and ambitious Hobby Photographers. The unique metallised character especially appears in motives like industrial, automobile or jewel photography or wherever chrome, steel, gold or silver is in the spotlight.

**SAM200 Smooth Artist Matt -** This matt coated FineArt paper delivers stunning contrast and sharpness with a large color gamut. It is also very qualified for black and white reproduction.

**SP310 Smooth Pearl** - This heavy, high-density photo paper with a smooth pearl surface and natural white shade guaranteed prints with the look and feel of a traditional photos. Its large color gamut enables exceptional image quality.
